News from SFX!

Let's be honest. Dismissal time in the parking lot can be stressful, right?

During two small windows of time, 640 students enter and exit our campus, and safety is our number one priority. As part of our new construction, and in collaboration with our neighboring schools, a parking lot study was conducted. Officials and engineers evaluated the volume of traffic coming and going throughout our campuses. A strategic plan was implemented, and parking spots were constructed based on this research. The direction of flow was designed by professionals with safety and efficiency in mind. While there are periods in the day when traffic is slow, the total time to clear our parking lot after school is at an all-time low. Dear parents,

We are so sorry to tell you that this year's spring concert scheduled for May 7th has been cancelled as Mrs. Nemeth is awaiting news on surgery for her hip. She is so disappointed, but looking forward to next years concert. Please keep Mrs. Nemeth in your prayers.

Brain Boost by Ms. Milano

I am delighted to have just returned from Chicago where I presented "Welcoming Exceptional Learners to the Early Childhood Classroom". It was exciting to share with educators across the nation all the wonderful efforts that are being made at SFX by the teachers, parents, and students. As our inclusion efforts increase, we know there will be a need for an Inclusion Aide next year. Please share with friends and family to see if anyone is interested. Have them contact Sue at sue.milano@sfxphx.org for more information. Thank you!

Gaming and Fortnite - Who is my kid talking to?

Q: My son loves to play video games, especially Fortnite. He wears a headset and often I hear him talking to people. He says it's part of the game, but I don't know who he is talking to. Is this all in good fun, or should I be concerned? [Read full article here.](#)
